Prior authorization from the FHCP Central Referrals is not needed for EKG services. The requesting provider can send an order to the EKG office. Appointments can be made by the physician's office or the member can call after the order has been received by the EKG office. The order for the EKG can be placed on a prescription pad and given to the member to take with them when they have their test or can be faxed to the appropriate facility. **Please include ICD-9 (Diagnosis Code).**
