

Great News!

We are pleased to announce a new program for our members who are turning 13 this year.

Beginning July 1, 2023, parents of children who receive one meningitis vaccine between their 11th and 13th birthday, one Tdap vaccine between their 10th and 13th birthday, and two HPV vaccines by the time they are thirteen will automatically receive a **\$125 Walmart gift card!**

Schedule an appointment with your child's doctor to find out if his or her shots are up to date. Children who are missing shots can get them during that visit. The gift card will automatically be sent once vaccinations are complete.

Ensure your child is fully vaccinated today!

For questions about this program, contact Stacy Eason, LPN
