INSTRUCTIONS: The need for diabetic shoes must be certified by a physician who is a Doctor of Medicine or a Doctor of Osteopathy and who is responsible for diagnosing and treating the patient's diabetic systemic condition through a comprehensive plan of care.

The managing physician must:

- Document in the patient's medical record that the patient has diabetes
- Certify that the patient is being treated under a comprehensive plan of care for diabetes, and that the patient needs diabetic shoes; and
- Document in the patient's record that the patient has one or more of the following conditions:
 - Peripheral neuropathy with evidence of callus formation;
 - History of pre-ulcerative calluses;
 - History of previous ulceration;
 - Foot deformity;
 - Previous amputation of the foot or part of the foot; or
 - Poor Circulation
- For each individual, coverage of the footwear and inserts is limited to one of the following within one calendar year:
 - No more than one pair of custom-molded shoes (including inserts provided with such shoes) and two additional pairs of inserts; or
 - No more than one pair of depth shoes and three pairs of inserts (not including the noncustomized removable inserts provided with such shoes).

Custom molded shoes are only available through Hanger Prosthetics and Orthotics, Inc.

To request this service please place your order on a **prescription pad** and include applicable covered criteria as listed above. The patient should then be directed to bring the **prescription** to the provider of their choice. Discounts will be offered for patients not meeting above criteria.

CASE MANAGEMENT COORDINATION OF CARE DEPARTMENT

The Case Management Coordination of Care Department provides services to members who experience complex health conditions or critical events that require the extensive use of resources and assistance navigating Florida Health Care Plans (FHCP) to facilitate the appropriate delivery of care and health coaching. Case Management Coordination of Care is considered a voluntary program and all eligible members have the right to participate or decline participation.

The aims of the Case Management Coordination of Care Program are to improve the health and quality of life of our members, identify and reduce socio-economic barriers, reduce inappropriate utilization of emergency department visits, reduce hospitalizations and re-admissions, and partner with providers to promote treatment plan compliance. The Community Resource Services does not substitute services for urgent evaluation or placement.

Florida Health Care Plans' Chronic Complex Care program assists members with complex health conditions that would benefit from additional support by a Registered Nurse Care Coordinator. The Registered Nurse Care Coordinator provides advocacy and education to help members navigate through the healthcare continuum, access appropriate care, and gain empowerment through self-management of lifestyle practices that can reduce disease progression and complications. The Chronic Complex Care program includes Transplant Case Management from pre-transplantation to one year post transplant and as needed.

Florida Health Care Plans' remote patient management program, Interactive Health at Home, allows their clinical team to monitor the member's daily vitals and when followed by Complex Care, notify the Registered Nurse Care Coordinator when there is a change that requires attention. Through the use of daily health sessions, the Remote Monitoring program helps to create positive behavior change and self-management skills. By providing monthly reports, providers gain key insights on the health habits of our members, receiving only timely, accurate, and actionable data. Use of this program promotes improved clinical efficiencies, reduced hospitalizations, and improved outcomes for members with chronic conditions. The peripheral offered are scale, blood pressure cuff, pulse oximetry, manual entry of FHCP glucose monitor.

Florida Health Care Plans' In-Home Providers- Home Docs for Volusia, Flagler, and Seminole Marketplace and Doctors at Home for Seminole and Brevard Marketplace are offered through the Case Management Coordination of Care Department. The service helps to supplement primary care services in the home. The initial visit for transition of care occurs within three business days and primary care services within seven business days. The goals of the In-Home Providers are to improve access to healthcare for homebound members to reduce the risk of disease progression; reduce risk of fragmented care; early interventions to reduce the need of the emergency department, hospitalization, and urgent care through management by primary care services; and facilitate transitional care for members discharged from the hospital to home with limited support to ensure compliance with follow up care, medication management, and reduce complications for the purpose to enhance quality of care.

Additional Case Management Coordination of Care information on the following page.

CASE MANAGEMENT COORDINATION OF CARE DEPARTMENT (continued)

Criteria for enrollment in case management may include members with new diagnoses, acute or uncontrolled chronic diseases and referrals through proactive data screening or referral of a member who requires any of the following:

- Healthcare related advocacy across the continuum
- Member education
- Assistance with monitoring and treatment
- Assistance with obtaining needed community resources
- Assistance with health conditions compromised by psycho-social or behavioral health needs
- Any clinical situation requiring care coordination to enhance continuity of care and quality of life

Florida Health Care Plans' Community Resource Services works in partnership with members and providers/referral sources to address the socioeconomic needs of members to improve access to healthcare related services through utilization of agencies and community partners. The Community Resource Coordinators will complete individualized needs assessments and connect members with appropriate existing resources offered through agencies or within their community. The Community Resource Services does not substitute services for urgent evaluation or placement. The goal of the Community Resource Services is to assist members with significant socioeconomic strain to identify actual or potential barriers through needs assessments for the purpose to improve access to healthcare by providing available community resources, or agency related services, and provide navigation through the continuum:

- Facilitate the coordination of healthcare delivery through education of available resources that can reduce socioeconomic strain
- Assist with access of resources available within the community or agencies.
- Provide education of community services or agencies that may or may not have fees associated.
- Facilitates member access to existing financial resources, such as those public assistance programs available through the Social Security Administration or Department of Children and Families.

COLOGUARD TESTING

INSTRUCTIONS: The Physician's office will need to complete the Cologuard Requisition Form available at www.cologuardtest.com. Complete the form and fax the completed form to the number noted on the bottom of the form. Patient Insurance/Billing Information must be completed for FHCP to pay for the test. The easiest option would be to copy the patient's FHCP card and attach it to the requisition.

- Cologuard is for individuals 50 years or older, and at average risk.
- Cologuard looks for blood and DNA associated with colon cancer and precancerous growth found in a person's stool sample.

Once ordered by your office, a Cologuard box is delivered to the patient's home via UPS. Patients collect their sample on their own time and use a prepaid return shipping label to send the specimen to Exact Sciences Laboratories in Madison, Wis. for processing. Test results are sent directly to your office within a few weeks. **Please fax a copy of the test results to FHCP at 386 / 481-5009.** Exact Sciences also conducts follow up calls to drive high patient compliance. You can learn more about Cologuard at www.cologuardtest.com/hcp.

Cologuard is not a replacement for diagnostic or surveillance colonoscopy in high-risk individuals.

PROVIDERS OR FACILITIES NOT LISTED IN FHCP DIRECTORIES

This would include all providers and hospitals that are out of the FHCP network. It also includes supplemental providers not listed in FHCP Provider Directories.

Referrals to Providers who do not participate in FHCP's HMO Network or certain providers and facilities that supplement FHCP's Network require prior authorization by FHCP. Referral to a non-participating or supplemental provider may be considered for approval under the following circumstances:

1. A particular skill or service is not available from FHCP Network Providers
2. A Network Provider is not available or accessible within established availability time frames
3. The Network Provider is not geographically accessible to the member

INSTRUCTIONS: Complete the FHCP Referral Form. Attach pertinent documentation to substantiate the request and forward by fax 855 / 442-8398 to FHCP's Central Referrals. The Referral Department will review the request and if approved will forward the referral and clinical information to the provider for scheduling purposes.

Please include the requested provider's complete name and telephone number if available.

Quest Genetic Counselor – 1 866 / 436-3463

Once the genetic counseling report has been received, attach the report to the FHCP Referral form and follow the above instructions.

GLUCOMETERS

BLOOD GLUCOSE METER TRAINING

FHCP's Call Center, located at Halifax Health, has meters available **ONLY** for FHCP members being discharged.

Meters (both new and replacement meters) are available for all other FHCP members at their **FHCP PCP office** or one of the **Extended Hours Care Centers** listed below. If member has an outside PCP and needs a new or replacement meter those meters are available in the EHCC clinics. All other requests or issues should default to Health/Diabetes Education and they will assist member. Please call 877 / 229-4518 or 386 / 676-7133 Fax: 386 / 238-3228.

Fee for Service clients must have a prescription and obtain their meter from wherever their insurance plan directs them. Volusia Health Network patients should call Karen Aalbrecht at VHN, 386 / 239-2322, to obtain their meters.

A member or his/her representative may pick up a meter if they already know how to use it. Meter training must be provided for all newly diagnosed members and American Diabetes Association (ADA) Recognized Diabetes Education Classes offered.

Meters (both new and replacement meters) are available for FHCP members at their FHCP PCP's office or one of the Extended Hours Care Centers listed below. The below EHCC locations will also be available for FHCP members who have an outside PCP and needs a new or replacement meter.

INSULIN PUMPS

It is the policy of Florida Health Care Plans to follow Centers for Medicare and Medicaid and Milliman Care Guidelines for approval of an Insulin Pump for Florida health Care Plans members.

PROCEDURE

All orders for the Insulin Pump will be processed through the Central Referrals Department. Attach the following documentation and laboratory values to the Referral.

Criteria A:

- Diagnosis of Diabetes Mellitus Type 1 that is obvious or that is documented by a fasting C-peptide level that is less than or equal to 110 percent of the lower limit of normal of the laboratory's measurement method, or positive GAD or insulin auto-antibodies; or
- Diagnosis of Diabetes Mellitus Type 2 manifested by wide fluctuations in blood sugars, or severe insulin resistance with inadequate glycemic control (i.e. HgbA1C > 7.0% despite multiple insulin injections with > 50 units per day + or – oral agents); and
- Completion of a comprehensive Diabetes Education Program (10 hour ADA Recognized Self Management Class or equivalent) within the past three years, to include carbohydrate counting by RD CDE. Once Diabetes Education and Carbohydrate counting has been completed, the appropriate educator will notify physician of completion via email or dictation within 72 hours of completion; and
- Documentation of an average of four (4) per day self glucose testing during the two (2) months prior to ordering pump; and
- Appointment with RN Diabetes Educator for evaluation and introduction to Pump
- Documentation of frequent adjustments of insulin dose for three (3) months prior to order.

And meets one or more of the following:

- Glycosylated hemoglobin level (HbA1c) >7.0 percent.
- History of recurring hypoglycemia and/or hypoglycemic unawareness.
- Wide fluctuation in blood glucose before mealtime.
- Dawn phenomenon with fasting blood sugars frequently exceeding 200 mg/dl.
- History of severe glycemic excursions.
- Pregnancy.

Florida Health Care Plans Community Relations Coordinator	FHCP Center	800 / 352-9824 ext. 7423
--	-------------	--------------------------

INSTRUCTIONS: Deaf and Hard of Hearing Interpreter services are available to all FHCP members. The requesting provider must call the FHCP Provider Relations Coordinator to request a Sign Language Interpreter at least 24 hours prior to the member's visit to their office.

2. Deaf and Hard of Hearing Services – Telecommunication Relay Services

FHCP uses the national Telecommunication Relay Services (TRS) System. TRS is a telephone service that allows persons with hearing or speech disabilities to place and receive telephone calls. Please call TRS RELAY directly at 711.

3. Language Interpreters – Language Line

FHCP contracts with Language Line to assist FHCP staff and providers to better communicate with members whose primary language is other than English.

Language Line Instructions for FHCP Contracted Providers:

Contact FHCP at 1-800-352-9824 or 1-386-238-3200 for your 6-digit Client ID Number. This will be needed for your call. You must call and request the FHCP 6-digit Client ID Number. This will insure FHCP is financially responsible for the service. You will then be able to proceed with the call.

All FHCP Staff Providers will have the 6-digit Client ID Number made available to them in their offices.

Additional Interpreter Services information on the following page.

This program is designed to help with urinary incontinence and pelvic pain for both male and female FHCP members 18 years of age and older. The program includes up to six (6) visits for pelvic floor strengthening and muscle training including biofeedback.

This will be considered a Direct Access/Self-Referral program by FHCP. FHCP members can either be referred by their physician or call directly themselves for scheduling.

Should a member require more than six (6) visits, additional visits will need to be pre-authorized through the FHCP Central Referrals Department.

PERINATAL & NEONATAL HIGH RISK PREGNANCY & INFANT CASE MANAGEMENT

FHCP is now offering the Rosebud Program to eligible FHCP Members who meet Rosebud's perinatal and/or neonatal case management risk criteria. Services are available at no charge to the recipient of care; however, **prior authorization** is required to refer the Member to Rosebud's program and services. A nurse that specializes in high risk pregnancy or high risk infant care will contact the Member to discuss the pregnancy or the infant care upon approved referral. The Rosebud Referral Form is available on our website at <http://www.fhcp.com/providers/announcements> in the "Related Documents" section as well at <http://www.fhcp.com/providers/forms/> Please complete this form and forward to the FHCP Central Referral Department via fax to either of the numbers listed below for processing.

PRIMARY CARE

Participating Primary Care Physicians can be found on our website at <https://providersearch.fhcp.com/>.

PROVIDERS OR FACILITIES NOT LISTED IN FHCP DIRECTORIES

This would include all providers and hospitals that are out of the FHCP's network. It also includes supplemental providers not listed in FHCP Provider Directories.

Referrals to Providers who do not participate in FHCP's HMO Network or certain providers and facilities that supplement FHCP's Network require prior authorization by FHCP. Referral to a non-participating or supplemental provider may be considered for approval under the following circumstances:

1. A particular skill or service is not available from FHCP Network Providers
2. A Network Provider is not available or accessible within established availability time frames
3. The Network Provider is not geographically accessible to the member

INSTRUCTIONS: Complete the FHCP Referral Form. Attach pertinent documentation to substantiate the request and forward by fax (855 / 442-8398) to FHCP's Central Referrals. The Referral Department will review the request and if approved will forward the referral and clinical information to the provider for scheduling purposes.

Please include the requested provider's complete name, address and telephone number.

PSYCHIATRY/BEHAVIORAL HEALTH
