Prior authorization from FHCP Central Referrals is not needed *for the program*. However, **prior authorization is required for bariatric surgery**. For the Bariatric Surgery *Program*, the requesting provider will send an order to the specialist. Appointments can be made by the physician's office, or the member can call to schedule after the order has been received by the specialty office. The specialty office will advise you of their scheduling protocol.

THE REQUEST FOR BARIATRIC SURGERY REQUIRES PRIOR AUTHORIZATION. FHCP encourages all bariatric surgery providers to contact FHCP to verify the member's benefits. Please complete the "Request for Surgical and Special Procedure Form" found at [Referrals, Prior Authorizations, and Orders](#). Please fax the completed form to the FHCP Central Referral Department at **386-238-3253** to request surgical approval. *Note that bariatric surgery requires the member to meet a BMI parameter of >40, or >35 with complications.*

Routine requests: Non-urgent and elective procedures should not be scheduled until approval is obtained to avoid patient financial responsibility. Please submit requests to FHCP Central Referrals Department as soon as possible, as it may take up to 14 calendar days for determination of authorization.

Urgent requests: Serious jeopardy to life, health, maximum function, or the ability to maintain maximum function all are classified as *urgent requests*. Physician offices should **call FHCP Central Referrals Department at 386.238.3230** to discuss urgent cases with a clinician, rather than faxing the request.

CASE MANAGEMENT – COORDINATION OF CARE (1 of 3 pages)

Case Management Coordination of Care is designed to address the needs of high-risk members. The case-management process utilizes evidence-based clinical guidelines to conduct comprehensive assessment of the member's condition; evaluates available benefits and resources; and develops and implements a case-management plan with performance goals, monitoring, and follow up. The overall goal is to empower members in self-management skills, regain optimum health, or improve functional capability through appropriate services and interventions. Case management is voluntary program, and all eligible members have the right to decline participation.

Criteria for enrollment includes, but is not limited to, members with new diagnoses, acute or uncontrolled chronic diseases, critical events that require extensive use of resources, significant barriers of social determinants of health that limit access to care, or members identified from proactive data screening who may require any of the following:

- Assistance navigating the health care system
- Assistance with barriers related to social determinants of health
- Education on health condition(s) and health coaching
- Education supporting their practitioner's plan of care
- Coordination of appropriate resources, programs, or benefits
- Coordination of measures to improve quality of life and disease-specific outcomes.

There are several case-management services to which the member may be stratified:

- **Chronic Complex Care** – Assists members with complex health conditions to reduce disease progression and gain empowerment through self-management of lifestyle practices that aim to improve quality of life. Members benefit from advocacy, education, and navigation to access appropriate care and/or link to resources, benefits, or programs. The program includes transplant case management.
- **Short-term Program** – Assists members with new-onset health diagnoses, hospital-to-home transitional care, or links members who have high use of the emergency room or multiple hospitalizations to FHCP resources. Members benefit from frequent contact for monitoring and education to better understand signs and symptoms for early intervention. Members gain empowerment with self-management skills to reduce complications and improve their quality of life.

SEE PAGE 1 OF 3 FOR INSTRUCTIONS.

- **In-home Mid-level Providers** – Service available in Brevard, Volusia, Flagler, and Seminole Counties. An RN Case Manager coordinates member's care with mid-level providers to assist homebound members or those with limited support to supplement primary care services in the home, or facility transitional care for high-risk members discharged from the hospital or skilled nursing facility (SNF) to home. In-home mid-level providers promote compliance with follow-up care and medication management to reduce complications and enhance the member's quality of life.
- **Community Resource Program** – FHCP Community Resource Coordinators (CRCs) partner with members and providers and/or referral sources to address barriers to social determinants of health that impact access to healthcare through utilization of agencies and community partners. Community Resource Coordinators complete individualized needs assessments to link members with appropriate existing resources offered through agencies or within their community. *CRCs do not address urgent placement or home safety evaluations.* Physicians must continue to refer members with urgent needs to their home health care skilled nurse and medical social worker or the Department of Children and Families (DCF). Skilled nursing facility (SNF) placement should be directed to the FHCP Utilization Management Department at 386-676-7187.

Members may be referred by:

CHIROPRACTIC

Prior authorization from FHCP Central Referrals is not needed. To find a complete list of available direct access providers and the networks the providers participate in please visit fhcp.com or FHCPMedicare.com

COLOGUARD TESTING

The provider must complete the [Cologuard Requisition Form](#) (found on page 3 of the link). Fax the completed form to the number noted on the bottom of the form. “Patient Insurance/Billing Information” must be completed for FHCP to pay for the test. To ensure coverage, please attach a copy of the patient’s FHCP insurance card to the requisition when faxing.

- Cologuard is for individuals 45 years of age or older and at average risk.
- Cologuard looks for blood and DNA associated with colon cancer and precancerous growth found in a person’s stool sample.

Once a provider submits the Cologuard Requisition Form, the request is processed and a Cologuard box is delivered to the patient’s home via UPS. Patients collect a sample and return using the prepaid return shipping label included with the box, sending the specimen to Exact Sciences Laboratories in Madison, WI for processing. Test results will be sent directly to the ordering provider in a few weeks.

Please fax a copy of the test result to FHCP Health Information Management at 386-481-5009.

Exact Sciences Laboratories also conducts follow-up calls to encourage higher patient compliance. You can learn more about Cologuard at <https://www.cologuardhcp.com>.

NOTE: *Cologuard is not a replacement for diagnostic or surveillance colonoscopy in high-risk individuals.*
